Test report

Tester:
Shakhlevich Andrey Igrevich

Number of people participated in the project: 1

Platforms used on the project:
Charles
XCode

Model and characteristics of devices that were used:
- iPhone 13 Pro Max Memory: 128 GB; iOS 15.5 (Simulator)
- iPhone 13 Memory: 128 GB; iOS 15.3.1
- iPhone 10 Memory: 64 GB; iOS 15.3.1
- iPhone 6   Memory: 16 GB; iOS 12.4.5

Features To Be Tested:
1.Correct installation and updating of the application
2.Registrations/Authorizations

In scope:
Documentation Testing
Smoke testing
Functional Testing
Usability testing
Compatibility testing
Stress tests
Performance testing

Used test documentation:
Checklist -2 units
Test Case - 11 units
Total number of checks 70

Number and priority of Bugs
Total number of checks 70
3 bugs were found
Bug 1
Priority - Low
Severity - Minor
Bug 2
Priority - Medium
Severity - Minor
Bug 3
Priority - Medium
Severity - Major

Percentage of bugs to the total number of checks - 2.1 %
Commentary: With this number of bugs you can go to release, but the functionality has not passed enough tests to judge its quality in general.
